Foreword

from our Senior Programme Manager (HIV
Confident)

We are the UK's HIV rights charity, working to stop HIV and defend the human rights of people living with HIV. Our work is values-led and rooted in the communities we serve. We understand that HIV is about far more than health alone, so our approach is wide-ranging: tackling stigma, influencing policy, and driving change to end new transmissions. At the heart of all we do is our belief that health is a human right. Our success relies on our expertise, credibility, independence, and the strong relationships we build with our allies.

But there is still so much to do. Every year, around 4,000 people in the UK acquire HIV, while many living with HIV continue to face stigma and discrimination. That's why our work remains as urgent and important as ever. For more information, please read our [five-year strategic plan](#) and our [Impact Report](#).

We are seeking a proactive and relationship-focused Senior Marketing and Relationships Officer to help grow membership of the HIV Confident Charter Mark, the UK's largest HIV anti-stigma programme for organisations. You can find out more about the programme at the HIV Confident [website](#).

It is fundamental to our values that those most affected by HIV help to lead this work. We particularly encourage applications from people living with HIV, gay and bisexual men, trans and non-binary people, and people from Black and minority ethnic communities. We also welcome applications from disabled people and are committed to making reasonable adjustments wherever possible.

If you can see yourself contributing to this mission, we'd love to hear from you.

Annie Howard
